

Docket™ Court Scheduling

Your Court can reduce errors and minimize the time it takes to request, confirm, and schedule hearings with Docket™ software from SolidCircle.

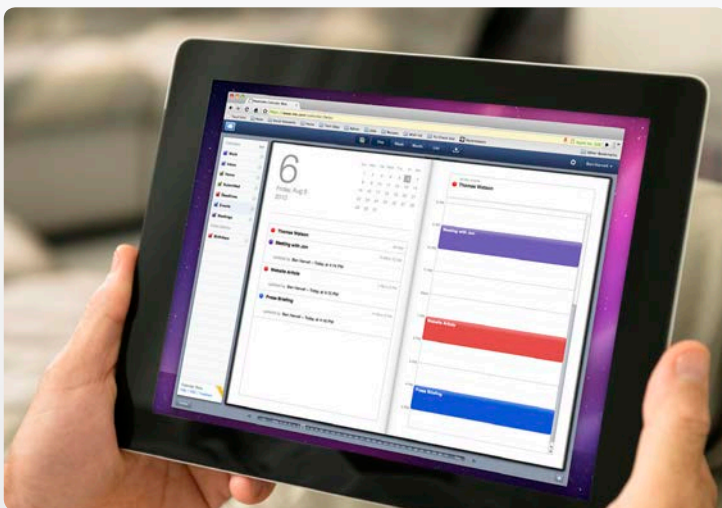

Docket™ is a web-based application that helps you manage your court schedules online to improve court efficiency.

“Docket™ is an excellent way for me to quickly access my schedule for upcoming days and weeks. It saves a lot of time and is extremely convenient.”

Kent D. Engle, Circuit Judge
Ottawa County, Michigan

Maximize Efficiency in your Court System

Docket™ will transform the way you manage your court schedules

- Judges and other staff can view docket schedules from their preferred calendaring application
- Court Staff will save time as they can schedule, edit, cancel, and adjourn hearings all in one place
- Automatic email notification improves communication between the Courts, Prosecuting Attorney, Law Enforcement, Probation, and Defense Attorneys
- Judges will never get scheduled for a hearing on a day off with our built in error prevention tools

Faster & Easier Court Scheduling

These are just some of the things you can do with Docket™

- View every court and docket schedule in your preferred calendar application on your computer or mobile device
- “Find First Available” judge in any court on any day with the simple click of a button
- Search for any hearing for any date by court, judge, location, courtroom, keywords, and more
- Create new hearing requests with minimal retyping by copying data from similar hearings
- Auto-send alerts to bookkeepers when new hearing requests are submitted
- View current, future, and historical docket information
- Print out dockets and generate statistical information
- Auto-relay hearing information to case management systems without manual data entry
- Auto-send email to all parties when hearings are approved or changed (Judges, Prosecutors, Attorneys, etc.)
- Configure application-wide preferences to minimize typing saving users even more time
